

EMTIAZ AHMED

Full Stack Developer — JavaScript — TypeScript — Next.js — Node.js
Natore, Bangladesh — +880 1704 829 369 — emtiaz2060@gmail.com
LinkedIn — GitHub — LeetCode — Codeforces

Professional Summary

Full Stack Developer with project-based experience building scalable web applications using Next.js, React.js, Node.js, Express.js, and PostgreSQL. Delivered production-ready systems including authentication, real-time communication, AI-powered features, and payment workflows. Strong foundation in data structures and algorithms with 500+ problems solved across competitive programming platforms.

Technical Skills

Languages JavaScript, TypeScript, Python
Frontend Next.js, React.js, Tailwind CSS, Shadcn UI
Backend Node.js, Express.js, REST APIs
Databases PostgreSQL, MongoDB, MySQL
Concepts Web Architecture, JWT Authentication, MVC, OOP
Tools Git, Prisma ORM, Postman, VS Code

Work Experience

Full Stack Developer (Project-Based) — PurrfectHub

2026

Cat Adoption Web Application

GitHub — Live

- Architected full-stack adoption platform using Next.js, TypeScript, and PostgreSQL with Prisma ORM, implementing JWT-based role access for adopters, shelters, and admins
- Developed AI chatbot *MeowMate* using Google Gemini 2.5 Flash and node-nlp, delivering 24/7 multilingual (EN/BN) support with 90%+ intent recognition accuracy
- Implemented end-to-end adoption workflow with real-time status tracking, automated email notifications, and admin-moderated review system
- Integrated Stripe for secure donations and built real-time analytics dashboard tracking adoption metrics and user activity

Front End Developer (Project-Based) — Nebula Chat

2025

Secure Messaging Web Application

GitHub — Live

- Built real-time messaging system using WebSockets with sub-1 second latency across 5+ concurrent chat rooms
- Implemented ephemeral messaging with Redis TTL-based auto-expiration supporting six configurable lifetimes
- Improved front-end performance by approximately 30% through React 19 compiler optimizations and efficient state management

Full Stack Developer (Project-Based) — Opinia

2025

Subscription-Based Review Platform

GitHub — Live

- Engineered Stripe payment integration supporting a two-tier subscription model with role-based access control
- Developed NextAuth.js authentication with JWT session management and Zod validation, reducing invalid submissions by 95%
- Built full-stack review management system with Redux Toolkit and admin moderation workflow, decreasing spam by 90%

Competitive Programming

LeetCode: Solved 500+ problems (Data Structures, Algorithms, Graphs, DP)

Codeforces: Solved 340+ problems with contest participation

Education

BRAC University, Dhaka

Sep 2022 – Present

B.Sc. in Computer Science and Engineering

Leadership & Activities

Senior Executive — BRAC University Computer Club

Senior Executive — BRAC University Chess Club

Certifications

Programming Hero — Full Stack Web Development Level 1 & 2 (2025)

HackerRank — SQL Intermediate (2025)
